

RESEQUENCED

100 PRESETS FOR REPRO-1

created by Electric Himalaya

HECKMANN AUDIO GMBH - BERLIN

Thank you...

...for purchasing **ReSequenced**, the collection of 100 powerful sequence presets for u-he Repro-1. From melodic lines to percussive patterns, this sound set provides a huge selection of inspiring new content. Traditional analogue-style presets, aggressive techno patches, synth-pop, ambient and percussive sounds, are all designed to be easily dropped into any track and provide an injection of creative energy. All presets respond to the modulation wheel and aftertouch for that immediate expressive touch.

ReSequenced comes in two formats: The 'ReSequenced' folder contains normal .h2p files which are recognized in Repro-1's own browser, while the 'ReSequenced (NKS)' folder contains Native Kontrol Standard files. If in doubt, install the regular version only.

Installation (regular version)

You can install **ReSequenced** anywhere within Repro-1's 'Local' folder. Mac owners may prefer to use the extra 'User' folder instead.

- Load an instance of Repro-1 into your DAW and click on the PRESETS button
- In Repro-1 'Directory' browser panel, right-click on 'Local' and select the menu option 'reveal in Finder' (Mac OSX) / 'open in Explorer' (Windows PC)
- Copy the 'ReSequenced' folder into the 'Repro-1' folder you have just revealed
- Back in Repro-1's own browser, right-click on 'Local' again and select 'refresh'

Assuming Repro-1 was originally installed using the default paths, it will recognize and display presets in the following locations (remember to 'refresh'):

Windows

'Local' ...\\VstPlugins\\u-he\\Repro-1.data\\Presets\\Repro-1\\

macOS

'Local' *MacHD/Library/Audio/Presets/u-he/Repro-1/*
'User' *~/Library/Audio/Presets/u-he/Repro-1/*

Installation (NKS version)

Simply copy the folder 'ReSequenced (NKS)' into the following location:

Windows: (YOUR PLUG-IN PATH) \\u-he\\Repro-1.data\\NKS\\Repro-1\\

macOS: *MacHD/Library/Application Support/u-he/Repro-1/NKS/Repro-1*

Alternatively, select Repro-1 in your Complete Kontrol host, right-click on the search result list and select 'Find in Explorer/Finder' to open the NKS presets folder.

About the author

Electric Himalaya is the nom-de-plume of a London-based sound designer and ambient music producer. His synthesizer sound design work can be found in products by Ableton, Apple, Roli, Steinberg and others. Electric Himalaya has also provided custom sounds for individual artists such as Bill Laurance (Snarky Puppy) or composer Annemarie Borg.

Electric Himalaya sounds have featured on the big screen in “50 Shades of Grey” as well as on TV, for instance all music and Foley for “Ben & Jerry’s Cookie Dough Ice Cream” ad.
